Stop aerosols! filter tips!

The Eppendorf **ep Dualfilter T.I.P.S.**® with their unique two-phase filter, provide an excellent shield against contamination. The white layer which faces the sample retains drops, splashes and aerosols. The blue layer above it forms a highly-effective double barrier, that reliably binds even biomolecules.

Pipetting Aid Trade-in Offer

Precise, safe and finger free series pipetting using graduated and one-mark pipettes is now possible with the aid of Easypet®, a light, hand-held device.

Easypet® responds exactly to finger pressure for slow or rapid aspiration, setting the meniscus or emptying the pipette.

- Suitable for pipettes of 0.1 ml to 100 ml
- High aspiration speed: 25 ml in 5 s
- Cordless work for up to seven hours

Save

Have Your Pipettes Calibrated today!

Eppendorf South Pacific has established a network of Service Facilities for the service, calibration and support of all Eppendorf Liquid Handling products.

Our service facilities provide traceable calibration, in-house repair as well as external service support. All calibration is performed in a controlled and monitored work environment.

Improve your results

Have your pipettes checked on a regular basis.

Those pipettes, that are not economical to repair, can be exchanged for a new Eppendorf pipette at a special 2010 Trade-in price.

Calibration of other brands of pipettes is available. For pricing please use Eppendorf equivalent or contact us for a quote.

Visit www.eppendorf.com.au/pipettes for all the details on our pipette calibration

How to Order Your Trade-in or Trade-up Pipettes

To order your Trade-in or Trade-up pipettes, simply contact your preferred Authorised Dealer listed on the back of this brochure.

Inform them of your desire to use the Trade-in or Trade-up programme. Once your order has been placed your preferred dealer will arrange for the Trade-in or Trade-up pipette to be collected or returned.

Please note the Trade-in/Trade-up programme works by trading in or trading up any brand/any condition pipette for a new one. The pipette being traded in or traded up must be like for like. For example, a single-channel pipette for a single-channel pipette, a multi-channel pipette for a multi-channel pipette, a dispenser for a dispenser.

If you have any further questions about how this programme works please contact Eppendorf South Pacific on **+61 2 9889 5000** or **info@eppendorf.com.au**.

ep-points

ep-points are intended to thank you, the users of our products, for your loyalty. ep-points are obtained automatically with our products, regardless of the price. ep-points are affixed either inside or to the packaging of selected Eppendorf products like pipettes, Eppendorf tubes and pipette tips.

Collect ep-points and exchange these for attractive gifts.

More information at
www.ep-points.com

50 ep-points FREE for
initial registration!

Eppendorf South Pacific

Contact Eppendorf South Pacific at any time if you have any questions about the right product for your needs.

Our specialist team at Eppendorf South Pacific is happy to discuss your laboratory requirements. You could also contact anyone of our Authorised Dealers, who have been trained and authorised to sell Eppendorf products.

Authorised Eppendorf Dealers
